DRAWING RULES

- Participants must activate their drawing entries by visiting a Promotion Kiosk between 5pm and 7:45pm on the drawing day.
- A random drawing will be held using the Promotion Kiosk Management Software (PKMS) to select 20 contestants. To be eligible to play for the grand prize, the contestants must have a rated play session at EQC Tacoma on the day of the drawing.
- The first 7 eligible names drawn will be playing Pick An Envelope to determine the winning prize.
- The remaining of the eligible names drawn will serve as alternates to take a position in the event there are no shows.
- All eligible names drawn will be announced on overhead PA and displayed on TV screens throughout the casino by 8pm. All contestants will have 7 minutes to present themselves and have ID verified at the designated promotion area. The game will proceed at the end of the 7-minute waiting period. Contestants will not be accepted for the drawing once the game has started.
- The contestant's game play position will be determined by the order in which they were drawn.
- In the event there are no-shows, the alternate contestants – in the order that they were drawn – will take the place of the no-show contestant.
- Each contestant will take a turn picking an envelope. Each envelope will be either blank or have a symbol to win \$1,000 cash. When a contestant picks the cash prize symbol, they will win the cash prize and be eliminated from the game.
- The last-standing contestant to pick a blank envelope will be the grand-prize winner.
- Contestants may not touch or tamper with the envelopes prior to their turn in any way. Touching or tampering with envelopes out of turn will be grounds for disqualification.
